

This 2 million BTU direct-fired heater delivers utility-scale heat output for the largest, open, and well-ventilated spaces. It's ideal for major construction projects, large industrial facilities, bulk material heating, and expansive warehouses where rapid temperature rise and high-capacity heating are essential to keeping operations on schedule in extreme cold.

Engineered for demanding environments, this 2M BTU unit features rugged construction, straightforward controls, and quick ignition for fast setup and reliable day-to-day operation. The direct-fired design maximizes efficiency and heat transfer, making it a cost-effective solution wherever there is ample fresh air and proper ventilation.

Technical Specifications

Type	Heater DF
BTU	2,000,000
CFM	12,000
Power Supply	240V 1 phase / 240V 3 phase / 480V 3 phase
Discharge Duct	24"
Temp rise from 0°F	190
Fuel Type	Natural Gas / Propane
Dimensions	101" x 60" x 64" (L x W x H)
Weight	2,200 lbs
