

This 25–40 ton air-cooled chiller delivers reliable, high-capacity cooling for a wide range of commercial and industrial applications. Ideal for process cooling, building HVAC support, production areas, data and equipment rooms, and temporary projects, it's designed to handle substantial loads while maintaining stable, efficient operation.

Flexible capacity across the 25–40 ton range allows you to match the chiller to your specific demand, whether you're supplementing an existing system, covering an outage, or supporting a new or seasonal load. With a robust outdoor-rated design, simple controls, and straightforward connections, this chiller is well-suited for rental fleets, contractors, and facility managers who need dependable, scalable cooling on demand.

Technical Specifications

Type	Air Cooled
Tons	35
BTU	420,000
Flow Rate	87.5 GPM
Fluid Connections	4" Victaulic Groove
Operating Range	25°F - 115°F
Chilled Water Set Points	40°F - 55°F
Refrigerant Circuits	2
Compressor Type	Series 16 Cam Type
Power	208V / 3PH / 60Hz
