

The Airrex HSC-14R-2 is a compact spot cooler designed to deliver powerful, targeted cooling exactly where you need it. Ideal for server rooms, offices, workshops, manufacturing areas, and temporary spaces, it keeps people and equipment comfortable without the cost and disruption of modifying your building's HVAC.

With its small footprint and heavy-duty casters, the HSC-14R-2 is easy to roll into place and set up in minutes. Adjustable discharge allows you to direct cool air to hot spots, workstations, or sensitive equipment, helping prevent overheating and downtime.

Built for reliability, the Airrex HSC-14R-2 features durable construction, straightforward controls, and efficient operation suited for rental, long-term use, or emergency backup. When you need flexible, portable cooling you can trust, the HSC-14R-2 is a smart, cost-effective choice.

Technical Specifications

Cooling Capacity	13,600 BTU
Coverage Area	Up to 500 sq. ft.
Power Supply	115 V / 60Hz
Circuit Breaker	15
Air Flow (CFM, H/L)	440 CFM (High) / 380 CFM (Low)
Operating Range	65°F - 113°F
NEMA Plug	NEMA 5-15
Dimensions	19.3" x 23.6" x 46.8"
Weight	178 lb
Refrigerant	R-454B (Low GWP)
