

The AHSC-14R Heat Pump from Airrex delivers powerful, year-round climate control in a compact, portable design built for demanding environments. Engineered to provide heating, cooling, and dehumidification, the AHSC-14R offers efficient 14,000 BTU performance, making it ideal for commercial spaces, workshops, server rooms, construction sites, and temporary facilities. Its advanced heat pump technology not only maintains precise temperatures but also helps control excess moisture, protecting equipment and improving comfort. With plug-and-play operation, rugged construction, and energy-efficient performance, it ensures fast deployment and reliable operation without complicated installation. When you need versatile, portable climate control that works as hard as you do, the Airrex AHSC-14R is the smart, professional-grade solution.

Technical Specifications

Cooling Capacity	13,600 BTU
Heating Capacity	13,000 BTU
Coverage Area	Up to 500 sq. ft.
Power Supply	1-phase 115V / 60 Hz
Circuit Breaker	15 A
Air Flow (CFM, H/L)	Evaporator: 440 / 360
Operating Range	61°F - 115°F (cooling) / 46°F - 81°F (heating)
NEMA Plug	5 - 15
Dimensions	13.3" x23.6" x 49.8"
Weight	178 lb
