

This 400 ton air-cooled chiller provides utility-scale cooling capacity for very large commercial, industrial, and institutional facilities. It's ideal for central plants, large air handlers, high-load process and production operations, data and equipment centers, and temporary or emergency projects where continuous temperature control is critical.

Engineered for dependable, around-the-clock performance, the unit integrates smoothly with existing piping or temporary manifolds using standard connections and user-friendly controls. Rugged construction and efficient operation make this 400 ton chiller a strong choice for contractors, rental fleets, and facility managers who need reliable, large-scale cooling on demand.

Technical Specifications

Type	Air Cooled
Tons	400
BTU	4,800,000
Flow Rate	1008 GPM
Fluid Connections	6" Victaulic Groove
Operating Range	0°F - 115°F
Chilled Water Set Points	0°F - 55°F
Refrigerant Circuits	4
Compressor Type	Series 16 Cam Type
Power	460V / 3PH / 60Hz
