

This 4.5 million BTU direct-fired heater delivers mega-output heat for the most demanding, large-scale, open, and well-ventilated environments. It's ideal for massive construction projects, heavy industrial sites, bulk material heating, and expansive warehouses where rapid temperature recovery and continuous high-capacity heating are critical in extreme cold.

Engineered for punishing conditions, this 4.5M BTU unit features a heavy-duty design, straightforward controls, and quick ignition for fast deployment and dependable operation. The direct-fired system maximizes efficiency and heat transfer, providing a cost-effective solution wherever there is ample fresh air and proper ventilation.

## Technical Specifications

Type	Heater DF
BTU	4,500,000
CFM	25,000
Power Supply	240V 3 phase / 480V 3 phase
Discharge Duct	32"
Temp rise from 0°F	190
Fuel Type	Natural Gas / Propane
Dimensions	168" x 72" x 77" (L x W x H)
Weight	5,500 lbs
