

The Airrex HSC-60R is a high-capacity portable spot cooler engineered for serious heat loads in large industrial and commercial spaces. It delivers powerful, targeted cooling to protect people, processes, and equipment in manufacturing areas, warehouses, data rooms, event spaces, and emergency setups. Heavy-duty casters and a compact, upright footprint make it easy to position exactly where you need it, getting cold air on hot spots and sensitive machinery fast. Built for continuous duty, the HSC-60R combines rugged construction with simple, intuitive controls, making it a dependable choice for rental fleets, facility managers, and contractors.

Technical Specifications

Cooling Capacity	60,000 BTU
Coverage Area	Up to 2,000 sq. ft.
Power Supply	220V 1-phase / 220V 3-phase / 460V 3-Phase
Amps	33
Plug Type	Hardwired Connection
Air Flow (CFM, H/L)	1,940 CFM
Operating Range	68°F - 113°F
Dimensions	19.3 x 23.6 x 49.8
Weight	550 lbs
Refrigerant	R-454B (Low GWP)
