

This 300 ton air-cooled chiller delivers utility-scale cooling capacity for large commercial, industrial, and institutional facilities. It's ideal for central plants, large air handlers, process and production loads, data and equipment centers, and temporary or emergency projects where temperature control directly impacts operations and uptime.

Built for reliable, around-the-clock performance, this 300 ton unit integrates easily with existing piping or temporary manifolds using standard connections and straightforward controls. Rugged construction and efficient operation make it a trusted choice for contractors, rental fleets, and facility managers who need dependable, high-capacity cooling on demand.

Technical Specifications

Type	Air Cooled
Tons	300
BTU	3,684,000
Flow Rate	727 GPM
Fluid Connections	6" Victaulic Groove
Operating Range	0°F - 125°F
Chilled Water Set Points	25°F - 60°F
Refrigerant Circuits	3
Compressor Type	Series 16 Cam Type
Power	460V / 3PH / 60Hz
