

This 180–220 ton air-cooled chiller delivers extra-large cooling capacity for demanding commercial and industrial applications. Ideal for central plant support, large air handlers, process and production loads, data and equipment rooms, and temporary or emergency projects, it’s built to maintain stable temperatures when demand and risk are highest.

Designed for straightforward integration, the unit connects easily to existing piping or temporary manifolds using standard connections and intuitive controls for quick setup and monitoring. Rugged construction and efficient performance make this 180–220 ton chiller a dependable choice for contractors, rental fleets, and facility managers who need reliable, high-capacity cooling on demand.

Technical Specifications

Type	Air Cooled
Tons	207
BTU	2,484,000
Flow Rate	474 GPM
Fluid Connections	4" Victaulic Groove
Operating Range	0°F - 125°F
Chilled Water Set Points	15°F - 60°F
Refrigerant Circuits	2
Compressor Type	Series 16 Cam Type
Power	460V / 3PH / 60Hz
