

This 750,000 BTU direct-fired heater delivers extremely high-output heat for large, open, and well-ventilated spaces. It's ideal for big construction sites, large warehouses, industrial facilities, loading areas, and outdoor or semi-enclosed projects where fast, powerful heating is needed to keep work moving in cold conditions.

With simple controls, rapid ignition, and rugged construction, this 750K unit is built for demanding jobsite use and continuous operation. The direct-fired design provides high efficiency and maximum heat transfer, making it a cost-effective choice whenever you have ample fresh air and proper ventilation.

Technical Specifications

Type	Heater DF
BTU	750,000
CFM	4,000
Power Supply	240V 1 phase / 240V 3 phase / 480V 3 phase
Discharge Duct	16"
Temp rise from 0°F	190
Fuel Type	Natural Gas / Propane
Dimensions	85" x 34" x 47" (L x W x H)
Weight	590 lbs
