

This 500,000 BTU direct-fired heater delivers powerful, immediate heat for large construction sites, warehouses, loading areas, and other well-ventilated industrial spaces. Built for tough conditions, it's ideal for cold-weather projects where you need to warm big areas quickly, protect materials, and keep crews working comfortably.

Straightforward controls, quick ignition, and rugged construction make this 500K heater easy to deploy and operate day after day. The direct-fired design offers high efficiency and maximum heat output, making it a cost-effective solution wherever there is adequate fresh air and ventilation.

Technical Specifications

Type	Heater DF
BTU	500,000
CFM	3000
Power Supply	120V / 1phase / 60Hz
Discharge Duct	16"
Temp rise from 0°F	190
Fuel Type	Natural Gas / Propane
Dimensions	74" x 31" x 45" (L x W x H)
Weight	590 lbs
