

This 140 ton air-cooled chiller delivers high-capacity cooling for large commercial and industrial facilities where reliability is essential. Ideal for central plant support, large air handlers, process and production loads, data rooms, and temporary or emergency projects, it's built to keep critical operations running when demand is at its peak.

Designed for straightforward integration, the chiller connects easily to existing piping or temporary manifolds and features user-friendly controls for quick setup and monitoring. Rugged construction, stable performance, and efficient operation make this 140 ton unit a dependable choice for contractors, rental fleets, and facility managers who need serious cooling power on demand.

Technical Specifications

Type	Air Cooled
Tons	140
BTU	1,680,000
Flow Rate	336 GPM
Fluid Connections	4" Victaulic Groove
Operating Range	0°F - 115°F
Chilled Water Set Points	40°F - 55°F
Refrigerant Circuits	2
Compressor Type	Series 16 Cam Type
Power	460V / 3PH / 60Hz
