

This 80 ton air-cooled chiller delivers serious cooling capacity for large commercial and industrial loads. It's ideal for central plant support, large air handlers, process cooling, production facilities, data and equipment rooms, and temporary or emergency projects where downtime isn't an option.

Engineered for dependable performance, the 80 ton chiller integrates smoothly with existing systems or temporary piping using standard connections and straightforward controls. Rugged construction and efficient operation make it a strong choice for contractors, rental fleets, and facility managers who need reliable, high-capacity cooling on demand.

Technical Specifications

Type	Air Cooled
Tons	94
BTU	1,128,000
Flow Rate	225 GPM
Fluid Connections	4" Victaulic Groove
Operating Range	0°F - 115°F
Chilled Water Set Points	40°F - 55°F
Refrigerant Circuits	2
Compressor Type	Series 16 Cam Type
Power	460V / 3PH / 60Hz
