

The AHSC 42 R is built for projects that demand dependable cooling in a tight footprint. Designed for rental and temporary applications, it delivers steady performance, simple operation, and easy setup—making it a smart choice for contractors, facilities managers, and event planners who need cooling they can trust.

With rugged construction and efficient components, the AHSC 42 R handles tough environments while keeping temperatures under control. Quick-connect fittings and clear controls mean faster installs and less downtime, whether you're supporting process equipment, supplementing building HVAC, or covering an emergency outage.

Technical Specifications

Cooling Capacity	42,000 BTU
Heating Capacity	47,000 BTU
Coverage Area	Up to 1,400 sq. ft.
Power Supply	1-phase 220V / 60 Hz
Circuit Breaker	30 A
Air Flow (CFM, H/L)	Evaporator: 1,290
Operating Range	65°F - 113°F
NEMA Plug	Designed for hardwire
Dimensions	29.1" x 57.1 x 47.7"
Weight	550 lb
