

325K IDF HEATER

This 325,000 BTU towable indirect-fired heater delivers clean, dry, fume-free heat for jobsites and events where comfort and safety matter. With its built-in trailer and rugged design, it's easy to move, set up, and position exactly where you need high-output heating.

Because it's indirect-fired, all combustion happens in a sealed chamber, so only clean air is delivered to the space—ideal for enclosed areas, finish construction, restoration, tents, and occupied spaces. Flexible duct connections let you direct heat to multiple areas or critical zones, while simple, reliable controls make operation straightforward for crews and rental users alike.

Built for demanding conditions, this 325,000 BTU heater is a strong choice for contractors, facility managers, and event planners who need portable, high-capacity heat with the convenience of a towable package.

Technical Specifications

Type	Heater IDF
BTU	325,000
CFM	1,800
Power Supply	240V / 1ph / 60Hz or 240V / 3ph / 60Hz
Discharge Duct	12"
Temp rise from 0°F	200
Fuel Type	Natural Gas / Liquid Propane / Diesel Fuel
Dimensions	83" x 30" x 52" (L x W x H)
Weight	1,250 lbs
